

Thank you for purchasing the levelbedded Dice Tower. During the assembly of your dice tower please only use PVA glue as this will provide the cleanest and strongest finish for your tower. Use a brush or tooth pick to apply a small amount of glue to all the joints before assembling as shown below.

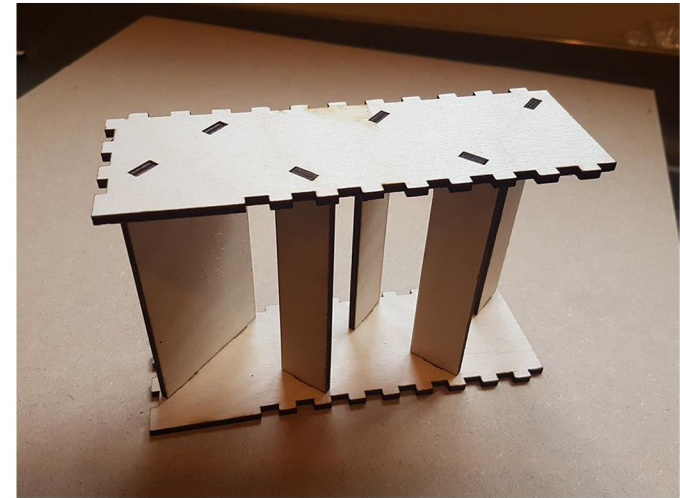

1) Check to see if you have all the pannels for the tower.

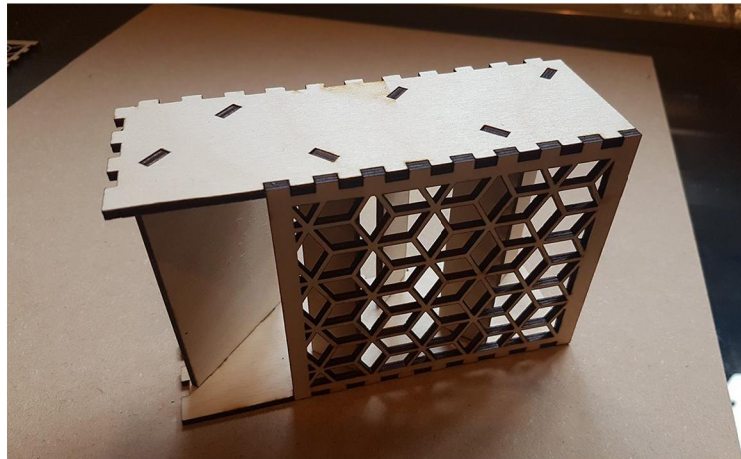

2) Lay down one of the side panels and glue in angled panels as shown below

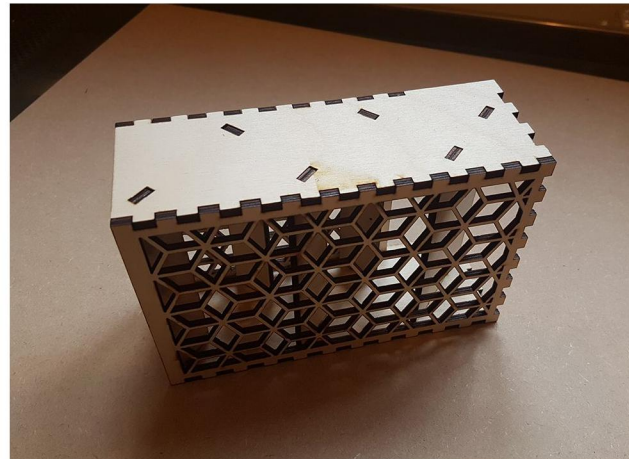

3) Glue on second side panel as shown below.

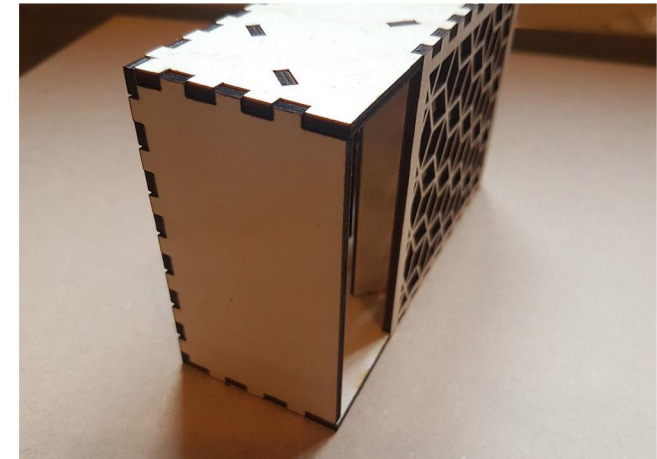

4) Glue on front panel, ensure all the teeth match up.

5) Glue on back panel as shown below.

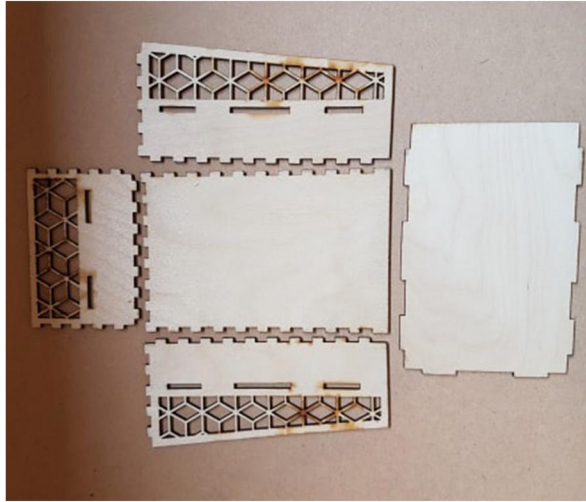

6) Glue on base panel. Elastic bands can be used to hold the tower in place while drying.

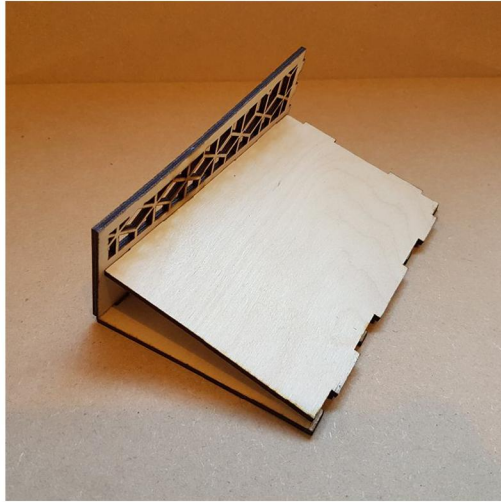

Tray Assembly

7) Ensure you have all the parts as shown below

8) Attach one side panel and the mid panel to the base as shown below

9) Attach the other side panel to the base and mid panels as shown below

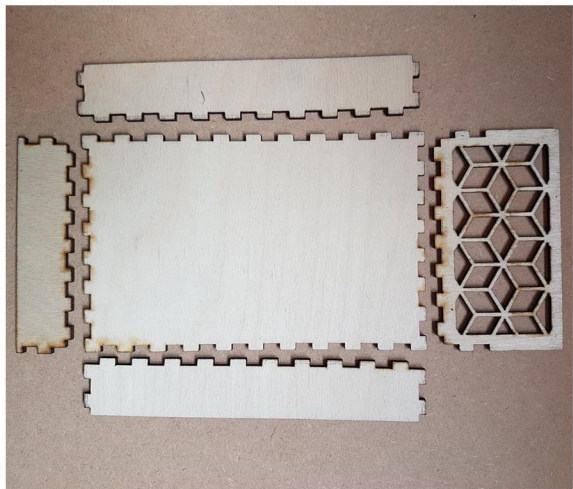

10) Attach the back panel, and the tray is finished. Leave it to dry fully

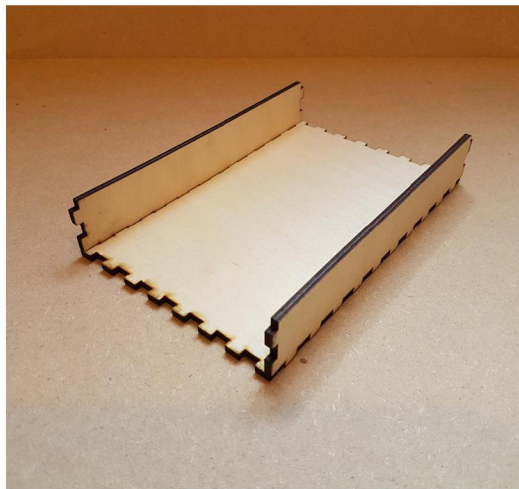

Draw Assembly

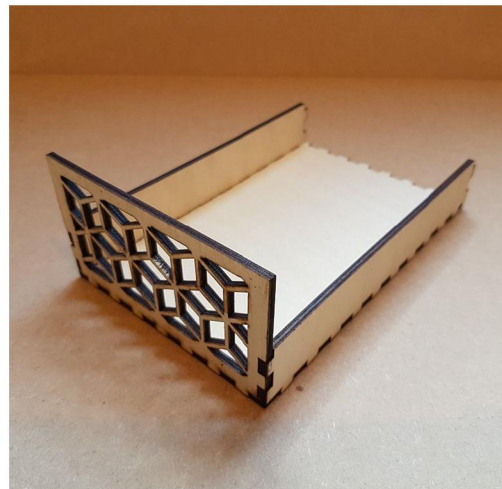

11) Ensure you have all the parts as shown below

12) Attach both the side panels to the base panel as shown below

13) Attach the front panel to the base and side panels as shown below

14) Attach the back panel, and the Draw is finished. Leave to dry fully
